Skills

JavaScript | **TypeScript** | **CSS** | **React** | **Next.js** | **Redux** | **Electron.js** | **HTML5** | **Sysyems Designs** | Zustand | CSS3 | SCSS | REST API | GraphQL | Node.js | Material UI | Ant-Design | RxJS | Tailwind | Responsive Design | UX/UI Design | CI/CD | Jest | Cypress | | Unit Testing | Performance Optimization | Microservices | Mongo DB | MySQL | English, Polish | Great Communication Skills – *All professional proficiency of above*

Experience

Frontend Developer (React)   Footballco   **Footballco**   *Katowice, Zelazna 2*   **04/2024 – present**

• **Maintained and evolved an internal UI component library** powering Goal.com, a high-traffic platform serving over **40 million monthly users**.
• **Enhanced and scaled the design system** in close collaboration with the UI/UX design team, ensuring consistency and efficiency across products.
• **Co-led development of the high-revenue** *Betting Goal6* **game**, a key monetization driver for the platform
• Applied **advanced SCSS methodologies** (e.g., BEM, mixins, theming) to improve **styling performance, scalability, and maintainability**
• Contributed significantly to **web performance and SEO optimizations**, improving critical Core Web Vitals such as **First Contentful Paint (FCP)** and **Interaction to Next Paint (INP)**.
• Collaborated within a **highly experienced Frontend team**, including **principal engineers with 20+ years of experience**, who consistently endorsed the quality and impact of my contributions. ⭐

Frontend Software Engineer   Shell ENERGY   **Shell Energy Retail**   *Kraków, Pawia 21*   **06/2022 - 04/2024**

• Engineered and developed a secure payments platform and account dashboard (bank like app) - supporting over €32M in annual transactions. Built micro-frontend applications from the ground up, leveraging modern design systems and architectural best practices .
• Deepened the knowledge about Design Systems and Data Flow Diagrams use cases.
• Worked on improving UI and UX based on customer feedback.
• I took the initiative to improve the quality and performance of the Shells applications though hours of profiling - then debugging and refactoring the code base.

React Software Developer   docmatic   **Docmatic**   *Kraków, Rakowicka 1*   **10/2020 - 06/2022**

• Developed complex web application (Docmatic) using destined for storing and managing unstructured document using AI models.
• Created Text Annotation Tool desktop app used for generating test data for NLP based ML models.
• Mentored by a Computer Science professor. Deepened the knowledge about good practices for creating and managing Frontend products.
• Studied available technologies to find the best solution for encountered challenges and to achieve desired results while keeping the best performance.

Frontend Software Developer   NOKIA   **Nokia**   *Kraków, Czerwone Maki*   **10/2019 - 10/2020**

• Worked on a customizable dashboard for visualization of processed and aggregated data. Displaying the results of 5G technology tests.
• Created a tool for creating 5G technology diagrams and data flows.

Software Engineer, Intern   NOKIA   **Nokia**   *Kraków, Czerwone Maki*   **07/2019 - 10/2019**

• Wrote test cases for new features based on product requirements and user interface design documentation.
• Utilized JIRA for tracking bugs, tasks, features, sprints and releases in Agile environment.

Education

Engineer/Bachelor of Computer Science   AGH   **AGH University of Science And Technology**   *Kraków, Reymonta*   **09/2018 - 02/2021**

• Major in Applied Computer Science – Good knowledge of Algorithms and low level programming (C/C++) with Physics and Mathematics background

Open Source Projects

📦 **GraphCommerce:** customized headless e-commerce Frontend for Magento 2, that delivers a faster, better user experience.
✨ **Imagio:** AI image SaaS platform that excels in image processing capabilities, integrates a secure payment infrastructure.
📑 **Iser:** ready template, fully utilized features and components, dark mode, ready to connect API using RxJS and Redux.

Courses and certificates

• **Frontend Expert:** Completed by solving 35 complex coding questions and passing the assessment of the deep Frontend concepts
• **Computer Science:** Low Level Programming | Data Structure and Algorithms | OOP

Awards

• **Team of the Year award winner**: Won the Team of The Year 2022 award among other 200 company competitors.
